Additional omnium categories may be entered at each event for \$10 each. Race entry fees include track usage fee at the Encino Velodrome. Southern California Juniors race for free at all events in 2011 in Southern California courtesy of the Southern California / Nevada Cycling Association. Reigning National and World Champions who notify the race director of their intention to race at the Encino Velodrome at least one week before race day and women who register to race against the men in the 1/2 omnium races will have their entry fees waived courtesy of the Encino Velodrome Association. Field limit is 24 riders per category. The Race Promoter Reserves the Right to Change the Race Types and Distances to Suit the Field. Boys and girls will race and be scored together in the 12 & Under and 13-16 categories.

OMNIUM is a set of races in which riders compete for points in each event and final placings are determined by total points in all events. The points awarded in each event shall be 7-5-3-2-1 for first through fifth. In case of a tie on total points, the tie will be broken in favor of the rider who has: (a) The most first place finishes or, if still tied, the most second place finishes, etc., or if still tied; (b) The highest placing in the last race, or the race nearest the last race of the omnium in which at least one of the tied riders placed. A rider need not compete in every event to be eligible for omnium awards.

TIME TRIAL is a race in which the riders are classified according to their elapsed time over a fixed distance.

CHARIOT RACE is a one lap race, from a standing start, first rider across the line wins.

POINTS RACE is a race in which the riders are classified by the total number of points accumulated during the race. Sprints for points are held every 10 laps. In each sprint, the first four riders are awarded points in order of finish as follows: 5 points, 3 points, 2 points, 1 point. Any rider who gains a lap on the main field will receive 20 points. Any rider who loses a lap to the main field will lose 20 points.

SCRATCH RACE is a race in which all riders start from the same point at the same time. The race shall be run over a specified distance and the riders classified according to the order in which they cross the line on the final lap.

ELIMINATION RACE is a massed start race in which the last rider over the line on designated laps is eliminated from the race, and placed, starting with last place, and progressing to higher placings with each subsequent elimination. The back edge of the rear tire determines the last rider over the line. The final sprint is judged as a conventional sprint, using the leading edge of the front wheel.

MADISON KILO is a flying 1000m (4 lap) time-trial with 2 madison exchanges for a team of 2 riders. Each team enters the track on the back-straight and starts their lead-out. When the team reaches the home-straight for the first time, the start/finish lap counter shows 6 laps to go. When the team enters the home-straight with the start/finish lap counter showing 4 laps to go, the bell is ringing, and the team executes their first madison exchange along the home-straight rail. Timing starts when the rider just thrown into the race crosses the start/finish line. When the racing rider reaches the relief rider (at roughly 2 laps to go), they execute their second madison exchange, and the rider thrown into the race at this point finishes the 1000m time trial at the start/finish line.

SUPER SPRINT is a medley of a miss & out and a 6-lap scratch race. For the miss & out start, the last placed rider is pulled every two laps, down to a 12 rider field size. The race then finishes as a traditional 6-lap scratch race.
